For the Record

MINNESOTA WEDDING DJ & AUDIO

Expert Audio. Unforgettable Entertainment. *Stress-Free.*

Your wedding deserves sound that matches the importance of the moment. From crystal-clear ceremony audio to a reception that keeps your guests dancing all night, For the Record handles every technical detail so you can focus on enjoying your day.

- BA IN MUSIC
- 10+ YEARS EXPERIENCE
- AUDIO-OBSESSED
- EASEFUL PARTNERSHIP

THE DIFFERENCE

Why For the Record

Perfect Ceremony Audio

I arrive early to test audio in your actual space, position microphones for clarity, and monitor every moment. No feedback, no dead spots—just clear, beautiful sound for your vows.

Your Music, Your Way

I'm not bound to wedding DJ clichés. Tell me your taste, your energy level, and I'll read the room in real time. Indie rock? 90s nostalgia? A mix of everything? I adapt.

Easeful Partnership

Quick responses, clear communication, and someone who actually cares about your day. I handle all audio logistics so you have zero stress. That's what partnership looks like.

Musical Expertise

With a bachelor's degree in music and 10+ years of experience, I bring real musicality to your day. Every transition, tempo shift, and song selection is intentional—not accidental.

THE STORY

More Than Just a DJ

Audio isn't something I do. It's who I am. I'm the person who sets the equalizer in the car, tweaks home office speakers obsessively, and travels with audio gear just to set up the party wherever I go.

When you hire For the Record, you're not just getting a DJ with equipment. You're getting someone whose brain never stops thinking about how to make your audio experience better. I work closely with you to understand your vision and your music preferences—no cookie-cutter playlists, just the songs that matter to you.

The name "For the Record" means creating moments worth remembering—moments that stick with your guests long after the last song plays. Getting it on the record, in the books, done right the first time.

> *"Perfect sound is the difference between a moving moment and a disappointment. Go with For the Record for perfect wedding and reception audio."*

PLANNING WORKSHOP

Your Wedding Audio, Thought Through

These are the questions and moments worth thinking about early—so nothing gets missed on your big day.

CEREMONY AUDIO

Every Moment Has a Soundtrack

Prelude

20–30 MIN BEFORE CEREMONY

Music as guests arrive and settle in. Sets the tone—romantic, relaxed, upbeat. Plan 5–10 songs that reflect you as a couple.

Processional

3–10 MINUTES

The walk down the aisle. Traditionally 2–3 pieces: family seating, wedding party, and the couple's entrance.

Ceremony

DURING THE SERVICE

Unity ceremony music, readings with background audio, or featured songs during special moments. Crystal-clear mics for vows.

Recessional

3–4 MINUTES

The celebratory walk back! Upbeat, joyful, energy-filled. The first song you hear as a married couple—make it count.

Postlude

10–15 MINUTES

Music as guests exit and transition to cocktail hour. Keeps the celebratory energy going as everyone moves together.

Live vs. DJ

CONSIDER BOTH

Combining live ceremony music with DJ reception is popular. I coordinate seamlessly with live musicians of any kind.

THINK IT THROUGH

Questions Worth Asking Yourselves

Venue & Setup

- Indoors or outdoors? (outdoor = extra audio care)
- Same space for ceremony and reception?
- How large is the venue?
- Any noise concerns nearby?
- Separate cocktail hour space?

Timeline & Flow

- How long will the reception be?
- Cocktail hour with music?
- Speeches during dinner or after?
- How many speeches & how long?
- Grand entrance announcement?

Music & Vibe

- Genres you love? Must-not-plays?
- First dance song picked out?
- Parent dances?
- Songs for cake, bouquet, last dance?
- Non-stop party or relaxed with peaks?

Audio Needs

- Wireless mics for vows & officiant?
- Mic for toasts and speeches?
- Background music during dinner?
- Live performances needing a mic?
- Ambient uplighting to set the mood?

PRO TIPS

Things Most Couples Don't Think About

Outdoor Ceremony? Plan for Sound.

Wind, open air, and ambient noise can swallow audio. Professional wireless mics and placed speakers are essential—not optional.

Speeches Need Mics. Always.

Even in small venues. A wireless mic ensures everyone hears every word and prevents the "speak up!" interruptions.

Energy Has a Shape

The best receptions build gradually—ambient during dinner, rising through speeches, peaking on the dance floor.

Finalize Details 2+ Weeks Out

Song choices, timeline, announcements—lock them in early so your DJ can prepare and rehearse transitions perfectly.

Let's Plan Your Perfect Day

Have questions? That's exactly what I'm here for. Let's walk through your vision together.
