For the Record

MINNESOTA WEDDING DJ & AUDIO

Expert Audio. Unforgettable Entertainment. *Stress-Free.*

Your wedding deserves sound that matches the importance of the moment. From crystal-clear ceremony audio to a reception that keeps your guests dancing all night, For the Record handles every technical detail so you can focus on enjoying your day.

BA IN MUSIC · 10+ YEARS EXPERIENCE · AUDIO-OBSESSED · EASEFUL PARTNERSHIP

THE DIFFERENCE

Why For the Record

Perfect Ceremony Audio

I arrive early to test audio in your actual space, position microphones for clarity, and monitor every moment. No feedback, no dead spots—just clear, beautiful sound for your vows.

Your Music, Your Way

I'm not bound to wedding DJ clichés. Unless you want that, which is great! Tell me your taste, your energy level, and I'll read the room in real time. Want indie rock? 90s nostalgia? A mix of everything? I adapt.

Easeful Partnership

Quick responses, clear communication, and someone who actually cares about your day. I handle all audio logistics so you have zero stress. That's what partnership looks like.

THE STORY

More Than Just a DJ

Audio isn't something I do. It's who I am. I'm the person who sets the equalizer in the car, tweaks home office speakers obsessively, and travels with audio gear just to set up the party wherever I go.

When you hire For the Record, you're not just getting a DJ with equipment. You're getting someone whose brain never stops thinking about how to make your audio experience better. I work closely with you to understand your vision and your music preferences—no cookie-cutter playlists, just the songs that matter to you.

The name "For the Record" means creating moments worth remembering—moments that stick with your guests long after the last song plays. Getting it on the record, in the books, done right the first time.

> *"Perfect sound is the difference between a moving moment and a disappointment. Go with For the Record for perfect wedding and reception audio."*

Perfect sound. Packed dance floor. One for the books.

Pricing is approximate and varies based on event details, location, and customization. Let's chat to build the perfect package for your day.

PLANNING WORKSHOP

Your Wedding Audio, Thought Through

These are the questions and moments worth thinking about early—so nothing gets missed on your big day. Use this as a guide as you plan, and we'll work through the details together.

CEREMONY AUDIO

Every Moment Has a Soundtrack

Prelude
20–30 MIN BEFORE CEREMONY

Music as guests arrive and settle in. Sets the tone—romantic, relaxed, upbeat. Plan 5–10 songs that reflect you as a couple.

Processional
3–10 MINUTES

The walk down the aisle. Traditionally 2–3 pieces: one for family seating, one for the wedding party, and one for the couple's entrance.

Ceremony
DURING THE SERVICE

Unity ceremony music, readings with background audio, or featured songs during special moments. Crystal-clear microphones for vows and readings.

Recessional
3–4 MINUTES

The celebratory walk back! Upbeat, joyful, energy-filled. This is the first song you hear as a married couple—make it count.

Postlude
10–15 MINUTES

Music as guests exit and transition. Keeps the celebratory energy going as everyone moves to cocktail hour or the reception space.

Live vs. DJ
CONSIDER BOTH

Will any parts feature a live musician? Combining live ceremony music with DJ reception is a popular option. I coordinate seamlessly with live musicians.

THINK IT THROUGH

Questions Worth Asking Yourselves

Venue & Setup

- Is our ceremony indoors or outdoors? (outdoor = extra audio care)
- Are the ceremony and reception in the same space or different?
- How large is the venue? Will guests in the back row hear clearly?
- Are there noise concerns nearby? (roads, other events, nature)
- Is there a separate cocktail hour space that needs music?

Music & Vibe

- What genres do we love? What should absolutely NOT be played?
- Do we have a first dance song picked out?
- Parent dances? Father-daughter, mother-son, or both?
- Any special songs for cake cutting, bouquet toss, or last dance?
- What energy do we want? Non-stop party or relaxed with peaks?

Timeline & Flow

- How long will our reception be? (typical: 4–5 hours)
- Will there be a cocktail hour, and would we like music there?
- When do we want speeches/toasts? During dinner or after?
- How many speeches, and how long? (budget ~5 min each)
- Do we want a grand entrance announcement?

Audio Needs

- Do we need wireless mics for vows and officiant?
- Will there be a mic for toasts and speeches?
- Do we want background music during dinner?
- Any readings, poems, or live performances that need a mic?
- Do we want ambient uplighting to set the mood?

PRO TIPS

Things Most Couples Don't Think About

Outdoor Ceremony? Plan for Sound.
Wind, open air, and ambient noise can swallow audio. Professional wireless mics and speakers positioned for your specific space are essential—not optional—outdoors.

Speeches Need Mics. Always.
Even in small venues. A wireless mic ensures Grandma in the back hears every word of the best man's toast—and prevents the "can you speak up?" interruptions.

Energy Has a Shape
The best receptions build energy gradually—ambient during dinner, rising through speeches, peaking on the dance floor. Your DJ should read the room, not just press play.

Finalize Details 2+ Weeks Out
Song choices, timeline, special announcements—lock these in at least two weeks before so your DJ can prepare, download, and rehearse transitions perfectly.

Let's Plan Your Perfect Day
